PERSONAL PROJECTS

Personal React Portfolio (05/2025 - 05/2025)

- **Live Project** : react-portfolio-five-tau.vercel.app
- **Built** a fully responsive personal portfolio using **React.js**, **Vite**, and **TailwindCSS**, featuring modern UI/UX with **glassmorphism UI**, smooth **AOS scroll animations**, and interactive effects.
- **Implemented** engaging front-end features including a **custom loader**, **typing-effect text change**, interactive **cursor animations**, and **snowfall background effects** for a modern, dynamic UI/UX.
- **Showcased** projects, skills, and achievements with **optimized performance**, **fast load times**, and **seamless cross-device accessibility**, delivering a professional and interactive user experience

Spotify Clone (GeetMantra) (04/2025 - 04/2025)

- **Live Project** : spotify-app-omega-jade.vercel.app
- **Developed** a responsive music streaming web app using HTML, CSS, and JavaScript, featuring mood-based playlists, favorites (wishlist), and categorized music by artist, era, emotion, and genre.
- **Designed** a seamless, ad-free, and cross-device user experience with an intuitive and modern UI/UX.
- **Created** an engaging music platform showcasing India's rich musical heritage — from classic legends like Lata Mangeskar and Mukesh to modern artists like Arijit Singh — with smooth interactions for better user experience.
